

DEEPAK S

Full-Stack Software Engineer (Fresher) | React · Node.js · Java | Applied AI/Agent Tooling

Chennai, Tamil Nadu, India | 9940645918 | deepaksureshdeepak036@gmail.com
[linkedin.com/in/deepak-s1006](https://www.linkedin.com/in/deepak-s1006) | deepak-portfolio-06.vercel.app | github.com/Deepak-1006S

PROFESSIONAL SUMMARY

Full-stack developer (React.js, Node.js, Express.js, MongoDB) with additional Java/OOP backend training and hands-on AI/ML internship experience, including an NLP-based chatbot build. Independently designed and shipped full-stack applications end-to-end — from database schema through deployment — across three solo internships. Certified in Google Cloud Generative AI and Salesforce Agentforce (Agentblazer Champion, 26 badges), with working exposure to agent-platform and prompt-design workflows.

TECHNICAL SKILLS

- **Languages:** Java, JavaScript, TypeScript, Python, SQL, HTML5, CSS3
- **Frontend:** React.js, Next.js, Tailwind CSS, Responsive Web Design
- **Backend:** Node.js, Express.js, REST APIs, JWT Authentication, Java (OOP, DSA)
- **Databases:** MongoDB (schema design), SQL
- **Tools & Practices:** Git, GitHub, Vercel, Debugging, CRUD, Data Structures & Algorithms, OOP
- **AI / Agent Tooling:** Google Cloud Generative AI, Vertex AI / Agent Platform, Salesforce Agentforce, Prompt Design, AI-assisted coding workflows

EXPERIENCE

Java Full-Stack Developer Intern — Gradtwin

Jul 2026 – Present | Chennai, India

- Strengthened core Java, object-oriented programming, and data structures & algorithms through independent, self-directed technical training and coding exercises — working solo with no team support.
- Built and debugged Java full-stack components end-to-end, covering backend APIs, frontend integration, and database operations, taking full individual ownership of implementation and troubleshooting.
- Practiced structured problem-solving, exception handling, and debugging fundamentals through hands-on development activity.

Full Stack Development Intern — VIPS.Tech

May 2026 – Jun 2026 | Chennai, India

- Independently designed and built a full-stack web application using React.js, Node.js, Express.js, and MongoDB, owning the project end-to-end from database schema design through deployment.
- Designed and integrated RESTful APIs with JWT-based authentication, implementing CRUD operations against a self-designed MongoDB schema.
- Debugged frontend and backend issues solo, improved responsive UI behavior, and used Git/GitHub for version control throughout development.

AI & Machine Learning Intern — VIPS.Tech

May 2025 – Jun 2025 | Chennai, India

- Built an NLP-based chatbot in Python, applying classification techniques across the full pipeline from text preprocessing through model evaluation.
- Performed feature engineering and hyperparameter tuning on the classification model, evaluating results iteratively to guide improvements to prediction quality.

SELECTED PROJECTS

CodeForge AI: AI-assisted software engineering workspace built solo with React, TypeScript, Express, Prisma/PostgreSQL, and JWT authentication; includes organization-level workflows and an integrated coding/AI experience. Migrated the backend from MongoDB to a PostgreSQL/Prisma schema mid-project, resolving data-model and query differences across authentication and organization-management flows.

Railway-X: Full-stack railway reservation application (React, Node.js, Express.js, MongoDB) with REST APIs, authentication, and CRUD-based booking workflows across a responsive UI.

Interview-Ace AI: AI-powered interview preparation platform with interactive interview workflows and a responsive, practical frontend UX.

EDUCATION

Bachelor of Computer Applications (BCA), Sree Muthukumaraswamy College, University of Madras

Jun 2024 – May 2027 | Chennai, India

CERTIFICATIONS & ACHIEVEMENTS

- Salesforce Agentblazer Champion 2026 — 26 badges completed
- Prompt Design in Agent Platform — Google Cloud, 2026
- Introduction to Generative AI — Google Cloud, 2026
- HackerRank: SQL (Advanced), JavaScript (Intermediate), Problem Solving (Intermediate)
- MongoDB Node.js Developer Path — SmartBridge
