

DEEPAK S

Full-Stack Software Engineer (Fresher) | Java, React.js, Node.js, MySQL, MongoDB

Chennai, Tamil Nadu, India | 9940645918 | deepak1006.dev@gmail.com

LinkedIn: linkedin.com/in/deepak-s1006 | Portfolio: deepak-portfolio-06.vercel.app

PROFESSIONAL SUMMARY

BCA student (expected May 2027) with Java full-stack internship experience at Gradtwin and MERN stack internship experience at VIPS.Tech. Built full-stack applications featuring JWT authentication, real-time features, and AI integrations. Seeking Software Engineering internships and fresher roles.

TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript, Python, SQL, HTML5

Frontend: React.js, Vite, Tailwind CSS, JSP, Responsive Web Design

Backend: Node.js, Express.js, Java Servlets, RESTful APIs, JWT, RBAC, Session Auth, CSRF Protection, Socket.IO, DAO

Databases: MongoDB, MySQL, SQL

Tools / Concepts: Git, GitHub, Maven, Apache Tomcat, Vercel, Razorpay, OOP, Data Structures and Algorithms

AI / ML: GPT-4o API, Gemini API, Natural Language Processing (NLP), Classification, Feature Engineering

EXPERIENCE

Gradtwin

Java Full-Stack Developer Intern | June 2026 - September 2026 | Chennai

- Strengthened Core Java, OOP, and Data Structures and Algorithms through structured training and debugging practice.
- Developed and debugged Java full-stack applications covering backend APIs, frontend integration, and database operations with cross-functional teams.
- Built the flagship project, Secure Cloud Storage & File Sharing, using Java, JSP, Servlets, and MySQL.

VIPS.Tech

Full Stack Development Intern | May 2026 - June 2026 | Chennai

- Developed full-stack web applications using React.js, Node.js, Express.js, and MongoDB, from MongoDB schema design and CRUD operations through deployment.
- Designed RESTful APIs with JWT authentication; debugged issues and improved frontend responsiveness using Git and GitHub.

VIPS.Tech

AI & Machine Learning Intern | May 2025 - June 2025 | Chennai

- Built AI/ML projects using classification and NLP in Python, including a chatbot, improving model performance through feature engineering, hyperparameter tuning, and iterative evaluation.
- Developed frontend projects and integrated AI/ML solutions into applications with cross-functional teams.

PROJECTS

FLAGSHIP PROJECT: Secure Cloud Storage & File Sharing | Java, JSP, Servlets, MySQL, Maven, Apache Tomcat | Gradtwin

- Built a secure Java web application for authenticated file upload, download, deletion, and sharing, with registration, login, password hashing, session-based authentication, and CSRF protection.
- Designed MySQL operations with DAO architecture for users, files, and sharing; implemented access control and a StorageProvider abstraction.

CodeForge AI: AI Software Engineering Workspace | React.js, TypeScript, Node.js, Express.js, MongoDB, Socket.IO, Gemini API, JWT

- Built a full-stack project and issue tracking workspace with Kanban workflows, JWT authentication, and role-based access control for Admin, Manager, and Developer roles.
- Integrated Socket.IO for real-time notifications and activity feeds, Gemini API for sprint summaries and task generation, and GitHub API for repository and commit tracking.

Railway-X: Railway Reservation Platform | React.js, Node.js, Express.js, MongoDB, JWT, Razorpay, Vercel

- Built a full-stack reservation platform with train search and filtering (source, destination, date, class, availability), booking history, and e-tickets.
- Implemented JWT authentication and Razorpay payment integration for ticket booking and transaction management.

Interview-Ace AI: Interview Preparation Platform | React.js, Vite, Tailwind CSS, GPT-4o API, Vercel

- Built GPT-4o mock interviews generating role-specific questions and detailed feedback, plus a Resume ATS Analyzer with scoring and keyword gap analysis.
- Created 8+ coding challenges with in-browser execution and a performance analytics dashboard.

EDUCATION

Bachelor of Computer Applications (BCA), Computer Programming | June 2024 - May 2027 (Expected)

Sree Muthukumaraswamy College

CERTIFICATIONS

- SB-AI Augmented Backend Development with Node.js & MongoDB, FutureSkills Prime (Gold Category, 100/100)
- MongoDB Node.js Developer Path (SmartBridge); SQL (Advanced); JavaScript (Intermediate); Python with Artificial Intelligence

Languages: English (Professional Working), Tamil (Native or Bilingual), Hindi (Professional Working)
